PROFESSIONAL SUMMARY

Entry-level UI/UX Designer with strong knowledge of user-centered design, wireframing, prototyping, and responsive interfaces. Proficient in Figma and experienced in designing mobile applications and authentication flows. Passionate about solving user problems through structured design processes.

CORE SKILLS

- User Research & User Personas
- User Journey Mapping
- Wireframing & Prototyping
- Low-Fidelity and High-Fidelity UI Design
- Figma (Auto Layout, Components, Responsive Design)
- Usability Testing
- Information Architecture
- Basic HTML & CSS
- Problem Solving & Communication

PROJECTS

Dog Walkers Mobile App Design

- Designed a mobile application connecting pet owners with verified dog walkers.
- Conducted user research and created user personas.
- Developed wireframes and high-fidelity prototypes in Figma.
- Designed booking flow, ratings system, and trust-building UI elements.

Login Page Design

- Designed clean and responsive login interface.
- Applied proper visual hierarchy, typography, and spacing system.
- Used Figma Auto Layout for alignment and consistency.

OTP Verification Flow

- Designed OTP input screen with error handling and confirmation states.
- Focused on usability and clear user guidance.

Password Reset Page

- Designed complete password recovery flow including email input and reset confirmation.
- Improved user experience by reducing friction and ensuring clarity.
